

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and support all the points in docket #00P-1211\CP1.

■ All GE foods should be labeled so I am informed and have a choice.

■ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.

■ There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Additional Comments I should have the right to know what I put in my body.
